

◦ SEALING MACHINE

used in various industrial applications for sealing cover.

◦ SILICONE SEALANT

Silicone Sealants is used for various applications such as Construction, Roofing, Industrial, Automobiles, Railways, Shipping, Clean Room Applications & many more.

◦ P.U FOAM

PU Foam is basically used for Filling Gaps

◦ NO MORE NAIL SEALANT

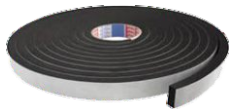

Bonding a variety of construction materials, such as: Wood or metal studs, drywall, glass and ceramics, carpet and carpet grippers, polystyrene foam board, PVC, decorative wall trim and moulding.

◦ Double Sided Conductive Tape

is a pressure sensitive adhesive transfer tape with anisotropic electrical conductivity.

◦ XLPE FOAM TAPE

XLPE foams are right at home in the building and construction industry where thermal insulation, moisture resistance, sound and vibration are critical.

◦ CABLE TIE

Cable Tie is a type of fastener, designed for bunching electric cables or wires and to organize cables and wires, but with a wide variety of other applications.

◦ BARRICADE CAUTION TAPE

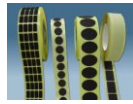

used to warn or catch the attention of passersby of an area or situation containing a possible hazard.

◦ BUTYL TAPE

It will adhere to just about any surface you can think of. Whenever you have two surfaces and you need to create a watertight dust free seal.

◦ DIE CUT TAPE

Customized die cut tapes

◦ POLYOLEFIN SHRINK FILM

POF Shrink Film are used for packing both regular & irregular shape products such as boxes, cups, stationary, books, toys, pesticide, food, cosmetics, record & video tapes

◦ DOUBLE SIDED CLOTH TAPE

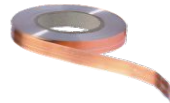

Double Sided Cloth tapes offer excellent resistance to all commonly used solvent system used in the graphic printing.

◦ FRICTION CLOTH TAPE

used in cables and wire assemblies. When it comes to construction, the tape is just a cotton cloth impregnated with a tacky rubber compound.

◦ COPPER FOIL TAPE

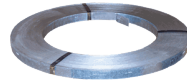

Excels in stained glass fabrication, industrial and electrical applications such as printed circuit manufacturing and repair

◦ P.V.C SHRINK FILM

Used for packing both regular and irregular shapes

◦ STEEL STRAPPING ROLL/TOOL

Used to pack heavy wooden cartons

◦ TAPE DISPENSER

◦ RUBBER BAND

Magnetic tapes and all type of adhesives available

#147, Shop No. 004, Ground Floor,

Tapes World

Adhesive Packaging Redefined

We would like to introduce ourselves as one of the leading distributor in South India dealing with all types of self adhesive tapes.

We offer you a complete range of converting services, Our quick turn around time and small minimum order policy allows you to stay ahead of the competition and reduce cost, We can meet any of your requirements in specialty tapes as per your standards. We provide complete source for adhesive tape related products. We are in the business of solving problems, providing solutions and sharing knowledge to help you to gain a competitive edge.

◦ BOPP TAPE

BOPP tape is used for carton box sealing and for stationery purpose. Printing of single and multiple colour is also possible with logo or customized design.

◦ STRETCH FILM

Stretch wrap or stretch film is a highly stretchable plastic film that is wrapped around items. The elastic recovery keeps the items tightly bound.

◦ DOUBLE SIDED FOAM TAPE

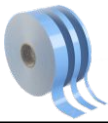

D/S foam tapes is coated on both sides with high performance adhesive and available with release paper or film. It has good resistance to humidity, mild acids, oil and grease.

◦ DOUBLE SIDED TISSUE TAPE

This tape can be used in shoe, leather, paper, white goods, foam, postal, decoration, labels and a lot more applications.

◦ DOUBLE SIDED POLYESTER TAPE

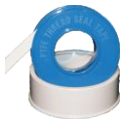

D/S Polyester comes with clear adhesive for application requiring transparency. High adhesion, quick stick and heat resistance, for fixing name plate and electronic.

◦ KAPTON TAPE

Kapton® polyimide film can be used in a variety of electrical and electronic insulation applications: wire and cable tapes, formed coil insulation,

◦ TEFLON TAPE

Thread seal tape is a polytetrafluoroethylene (PTFE) film cut to specified widths for use in sealing pipe threads

◦ DUCT TAPE

Duct tape is commonly used in situations that require a strong, flexible, and very sticky tape. Some have a long-lasting adhesive and resistance to weathering.

◦ PINK RAYON TAPE

As Rayon cloth is having very good tensile strength this tape is specially designed for the electrical industry. As it is highly flexible and printable applications of this tape is very wide.

◦ BLACK CLOTH TAPE

Used for Ducting in Air Conditioner and for heavy packaging

◦ P.T.F.E CLOTH TAPE

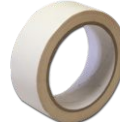

Used in sealing machine to resist temperature.

◦ ALUMINIUM FOIL TAPE

Aluminium tapes used in many applications requiring moisture and chemical resistance, thermal conductivity, heat and light reflectance, flame resistance and weatherability

◦ MASKING TAPE

Heavy thickness crepe paper backing for good paint lines. Natural rubber adhesive for good instant adhesion. Easy tear, pressure sensitive

◦ HIGH TEMPERATURE MASKING TAPE

High Temperature Tapes to protect your critical electronic components during the solder reflow process while leaving virtually no adhesive residue after removal.

◦ FILAMENT TAPE

Filament tape or strapping tape is a pressure-sensitive tape used for several packaging functions such as closing corrugated fiberboard boxes, reinforcing packages, bundling Etc.

◦ PAPER REINFORCED TAPE

This tape is water activated. The gum backing becomes part of the cardboard carton and with reinforcing threads results in a very tough tamper proof package.

◦ SURFACE PROTECTION TAPE

LDPE film is coated with pressure sensitive adhesive. Depends upon the surfaces to be protected and use, the adhesive is applied on the film. Surface Protection

◦ FLOOR MARKING TAPE

Floor marking tapes are widely used for safety purposes. These tapes find wide application for identifying lane marking for storage segmentation

◦ ANTI SKID TAPE

Slip resistant adhesive tapes provide safe and effective solutions to all areas where slips and trips can cause injury.

◦ BUBBLE ROLL / BUBBLE ROLL POUCH

The Bubble Sheet Roll can prevent the product from damage during product handling and transportation owing to collision or static electricity reasons.

◦ P.V.C INSULATION TAPE

These insulation tapes find wide application in electrical applications for their good adhesion and insulation properties.

◦ V.H.B TAPE

From transportation to appliances & electronics, from metal fabrication & Signage to structural glazing & architectural panels

◦ NITRILE FOAM TAPE

The range of nitrile foams adhesive is particularly used for cushioning and packaging in different industries.

◦ REFLECTIVE TAPE

Reflective tape is used for vehicles and road marking which reflects at night.

◦ STRAPPING ROLL

Packaging Strapping Roll is made of good quality material provides the good and durable packing.

◦ STRAPPING TOOL

Combination tools of tensioners, sealers and cutters

◦ SEMI AUTOMATIC STRAPPING MACHINE

Semi Auto Strapping Machine offered are precision designed and developed machines that are suitable for meeting the strapping needs of books, cartons, packages (soft & hard) as well as articles in square and cylindrical.
